Used Desert Sun Pools last fall to redo the pool. Great working with Jim and the staff. Quick, efficient, and always on time. Jim personally checked the work everyday. Used them numerous times since (Installed conduit 70' from junction box to backyard lighting, Etc..)

Also, used Durafoam for a new roof this past month. Great bunch of guys working for them. Derek did all of the estimates and follow up. The crew covered all cars in the neighborhood, our pool, all of the backyard flowers and furniture prior to spraying on the original coating. They even covered cars across the street and around the corner.

Your recommendations are always followed and have proved to be just what you say they are. Now we need A/C maintenance, so of course, we will use one of your recommended services.

Thank you again, Ralph Glasmann
