

Dear Devin:

I am writing this to thank all of Kirk Development for the outstanding and professional people who put this project together and as you can see from the picture, make it such a success.

Gary Tomich was our first contact with Kirk and put together an excellent project, architectural drawings, and bid.

Tom Rohrer was truly outstanding. He made it happen, stayed on the time line, and brought in outstanding subs who were as much gentlemen and masters of their craft as was Tom. With each city inspection done, Tom was there to support and explain the project. If we ever have another major project, it MUST be with Tom in the lead.

You have all been so helpful and supportive that I just wanted to thank you all. PLEASE make sure that everyone involved gets this message and knows how happy we are with the workmanship that has been accomplished. I do not have Rosie Romero's email address but I would very much appreciate it if you could forward this email to him, as he personally suggested that Kirk Development work with us.

Sincerely,
Bonnie and Lou
