Hello, I am so sorry I am just now reading my email. I called temperature control and informed them that I was looking for an entire new ac system. The gentleman "Tony" drove to my house for an assessment and we spoke for two hours about which best options I had. After ironing out the cost, I then called a friend I have in the AC business in Phoenix and he said it was a great deal!!

We decided to move forward, and as planned. The crew showed up on time, worked all day until 2130 at night!!!! The whole job went just as "Tony" said it would. He said all his people have great work ethic. People from the office called to check in to make sure my AC was working properly.

Temperature control is "a well oiled machine", that works to ensure that their customers are personally taken care of!! I am beyond impressed by the attention to detail that this company has! I would recommend them to all my family and friends.

Thank you Rosie!!
