Question or Comment

I saw your website on Monday featuring ADVANCED HOME SYSTEMS as your contractor of the month. I've heard you talk about them the past few years.

I then decided to call and spoke to Eric, after he reviewed my APS yearly bill he said he could save me at least 36% a month and keep my house a lot cooler and more comfortable this summer.

I called him back to have the unit installed. Eric said they just had a cancellation and could put a unit in the next day. Steve and Eric showed up a little before 7:00 AM and had the unit installed by 9:00 AM. They answered all of my questions and explained in detail how the unit worked. They did a great job!! Thanks for another great recommendation.
