

By far the BEST company we've dealt with!

Arizona Chimney Sweep is by far the best company we have dealt with in years. Everything from the quick email response for a quote to the completed work was flawless and very professional. Sean was awesome and was the most respectful, hard working and decent person we have ever dealt with in home services. He was determined to unclog our very stubborn plugged dryer vent that had never been cleaned, even working in our attic until he was successful! He then did a very thorough job cleaning our chimney as well. We will have the dryer vent cleaned on a regular schedule now. We highly recommend this "Rosie approved" company and will use them exclusively in the future.
