

Sanhar, inc. has done business with East Valley Floors for over two decades. They have installed Marble, Ceramic tile and Carpet in large custom homes for us, but also have had the time to help out when only one room in a house needed re-carpeting. East Valley Floors delivers what they promise, when they promise. They are courteous to all while on the job. On the rare occasion that the work is not what was expected due to a mis- communication or a mistake they have always put the customer first and corrected the problem to everyone's satisfaction.

I would highly recommend EastVvalley Floors to anyone without the slightest hesitation. Try them once and you will be their customer for life.

Ahmed (President)
