

Dear Von,

We recently worked with East Valley Floors for the purchase and installation of carpeting in our home. We were very impressed with the entire process from carpet selection to completion of installation. East Valley offered quality advice in helping us pick out a carpet grade to meet our expectation in terms of wear for each specific room. The communication and integrity was great throughout the process as East Valley kept us well informed and followed through with all commitments. East Valley was very competitive with other quotes obtained, provided excellent value and an extremely positive experience.

Darin
