

Wanted you to know that D just did everything right...*and* dealt with me!

We are neighbors of
a property your company is doing work on.
After watching your crew there for two days, I had to call.
You guys really do quality work! Your guy kept the ground
watered for dust, he was very conscientious, friendly,
and just wonderful! We will be calling you if
we ever need septic work done!
-Neighbors on Quail Road

Wanted to take a moment and thank Wally and his staff for the incredible service we received. We had the house we are purchasing inspected yesterday.

The gentleman who came out was very friendly, very professional, and did a stellar job. The septic tank had an unusually high amount of material in it which should not have been flushed down the toilet. He stayed on site until dark to ensure the tank was properly serviced and cleaned. It was a huge job, as I was there all afternoon. Thanks to his professionalism, courtesy, and persistence, we are ready to move into our newly purchased home. Based on my experience with A-American Septic Service, congratulations to Wally and the A-American Septic Service team for your service and your success -CV
