

To: Kirk Development Company

During the remodeling project at our home last October and November, it was our distinct pleasure to work closely with Steve Cochran, the Project Supervisor.

During all aspects of the project he was available, courteous and above all, extremely knowledgeable and helpful. We were also very pleased with the work of all your sub contractors and the very professional way they went about their work.

Steve did a great job of coordinating their efforts, which enabled the project to be completed ahead of the anticipated date. Judy and I really appreciate his professionalism and style. We hope to work with him again on our next project, which is to begin shortly.

Remodeling projects are always a real challenge, particularly when one considers the disturbance and mess that are created within the home. However, working with your whole staff made it that much less painful. We are always ready to recommend Kirk to anyone who asks for a reference.

Yours truly,

Fred and Judy
