

Dear Mr. Sertich,

The purpose of this note is to acknowledge the exemplary work performed by Gary Wheat and Steve Cochran on my new powder room. Always patient and helpful, both men were a delight to work with from design through installation. They helped me make practical as well as aesthetically pleasing choices. They were respectful of my home, accommodated my schedule, and kept to theirs.

This is not the first redo project I've completed in my home, but it is the first one that didn't involve significant aggravation!

Kirk Development Company is lucky to have these fine men in their employ and they should be commended. Please share my thoughts with them so they will know how very much they were appreciated.

Most sincerely,
Diane [REDACTED]
