Comments: About two weeks ago we need to have Knight Air Conditioning replace a 15 year old Heat Pump and 25 year old air handling unit. Chuck had nursed them along with the spring/fall visits we asked him to make, but the end was inevitable. When they took our the air handler they found some construction problems. They repaired all of those before putting in the unit. Not only did we receive a newer and much more efficient unit, the whole system and it's installation was left much better than they found it. We are very pleased that we found Knight A/C through your referral network six years ago. We have been listeners for at least 20 years.
Thank you for your service and for your network.
Bob
