

I don't often take the time to commend a company on the great experience that I had and that's because in this day and age there aren't many to commend, BUT Reeis is one of them!!!!

We have had the initial consultation, 2 crews working at our house (6 guys) and the informational gathering for the APS rebate so that is a total of 8 different people from your company. Each one was nicer than the last, if that is even possible. They were friendly, knowledgeable, professional, careful and very conscious of leaving my home the way they found it.

We have already begun spreading the word to friends and neighbors.

Please don't get too big or too busy to lose this way of doing business that is almost non-existent in today's society.

Regards,

Kathy
