

Hi Paul!

I wanted to thank you for inspecting my home yesterday! Really, I do appreciate your expertise and the fact that you showed me how the City of Riverside rebate program is going to cover the cost! I never imagined it could be that sweet of a deal! This effort by REEis will be great for my budget as the electric bills should be reduced substantially and the equipment should work far more efficiently.

I'm going to Home Depot to buy light bulbs!!! My daughter should be at home on Friday. Do you know when your crew will be there to do the installation? Remember when I said you are the "pro" and I'm the "skeptic"? Even though I see the deal on paper, I will still have doubt until I receive that rebate check!!!

Hope to see you around soon! I went to two of my neighbors' homes after you left and gave them your card and flyer. They looked at me exactly the way I looked at you when you told me about the rebate! I did say every home will be a little different, but I was extremely pleased with the results. Below are their names:

Aaron and Traci (next door)

Mike and Dorothy (across street on corner -- the lucky ones with attic vents!!)

I will also bring your info to work -- forgot it today -- sorry. I'm old!

Kind regards,

Nancy
