Question for Rosie: Just a comment. Thanks to your referral network I contacted Thunderbird Plumbing and am very satisfied.

My renter called this week and said "water was bubbling in the front yard." since I do not have a sprinkler system, I knew this was not good. My friends did not have a referral, so I got on your web site and called Thunderbird. They came out, diagnosed the problem and came back the next day and fixed it. I knew I could trust them because of your referral system. I even paid them over the phone.

Thanks, Patty
